

# User Guide

Congratulations on your purchase of Teamstudio® software, Edition 33.

You can use the Teamstudio tools for IBM Lotus Notes® and Domino® application development individually or together.

See the [Installation Guide](#) for instructions on installing and removing your Teamstudio tools.

Start by Installing and Initializing Teamstudio Tools.

Then review information about the product(s) you have purchased here: [User Guide](#)

We welcome your feedback! Tell us what you like and dislike about our products. Tell us what new features or new products you want to see. That way we can continually improve our product, and help you achieve your development goals. Please send us your feedback via [techsupport@teamstudio.com](mailto:techsupport@teamstudio.com).

Thank you for using Teamstudio products!
